Growers of Fine Strawberry Plants

Dear Friend:

Just a word concerning our plants and ourselves. We have lived on this farm 35 years growing strawberries and raspberries for fruit and plants.

Our plants have been inspected by the state, completely, and we believe they are as good as can be bought.

They are all dug in the spring as needed. All orders will be filled immediately or on date you wish shipped.

No C.O.D. orders, please.

STRAWBERRIES

No strawberries listed below require mating
or will intermix if planted side by side.
